# The Calf Catcher

## Features:

- Safely catch, treat, weigh and transport newborn calves.
- One person can process newborn calves.
- Protection from aggressive mother cows.
- Can be towed behind the ATV.
- Optional toolbox for tags and processing tools.
- Easy to attach and remove from ATV.
- Built rugged for rough terrain.
- Designed by Cattlemen for Cattlemen.
- Made in the USA.

Works great for transporting newborn calf with trailing cow - the cow never loses sight of it's calf during transport.
